Parts Inventory & Price List

Transcribed from the handwritten parts register (Columns A–F). Buying prices are in US Dollars (USD) as recorded; selling prices are in Kenya Shillings (KSh) as recorded. No currency conversion has been applied — the two columns are independent figures taken directly from the register.

Column A — Valves, Cylinders & Pistons

Transcription Notes & Items to Verify

Source. Six photographs of the handwritten Printex Engineers parts register, labelled Column A through Column F.

Currency. Buying prices were written with a \$ sign and are recorded as US Dollars. Selling prices were written without a symbol and are recorded as Kenya Shillings. No exchange rate has been applied anywhere in this document; the two price columns are independent figures copied from the register.

Blank prices. Several lines in the register carry no buying price, no selling price, or neither. Those cells are left blank rather than filled with zero, so subtotals and totals reflect priced lines only.

Struck-out lines. Two lines were crossed out in the register and are listed separately above, excluded from all totals.

Price corrections. Where a price was overwritten in the register, the later value is used and the change is recorded in the Notes column.

Entries where the handwriting was unclear

Entry	What to check
Feeder Sucker Rod (Column C)	Buying price of \$10 exceeds the KSh 100 selling price as written.
Rubber Sucker 45 x 13 x 0.8 mm and 45 x 13 x 1 mm (Column C)	Buying price written as \$10, but every comparable sucker on the page is priced \$0.10–\$0.30. This may be \$0.10.
Tapered Pin 00.540.0081 (Column E)	The middle three digits are ambiguous and could read 00.500.0081.
Diaphragm Clips CPI (Column B)	Trailing letters read as 'CPI'.
Friction Wheels CPH (Column B)	Trailing letters read as 'CPh'.
Worm Gear 42.006.029 (Column C)	Description read as 'Worm Gear' by comparison with the 'Gear Worm M2.006.001' line, which carries the same \$8.50 buying price.
Cam Follower F-237858.01 (Column D)	Quantity and both prices are blank in the register.
Plate Clamp Airbag Tube (Column B)	Held as a roll rather than a piece count; the buying price is per metre.
Cross-references (Column D)	Two margin notes carried into the Notes column: 00.550.1471 against F-217813.04, and F2.011.121 against F-229025.
